

DISRUPTIVE DIAGNOSTICS: LMP WEBINAR 4PM MONDAY

DATE AND LOCATION:

Monday March 4, 2019, 4:00 – 5:00 PM
Medical Sciences Building, Room 2170, University of Toronto

SPEAKER:

Aristotelis Tsirigos, Ph.D.
Associate Professor of Pathology
Director, Applied Bioinformatics Laboratories
New York University School of Medicine

TITLE:

Automated analysis of whole-slide images using deep learning

OBJECTIVES:

1. Introduce concepts of deep learning
2. Describe how deep learning can be used to analyze histopathology images

The webcast is scheduled to begin at 4:05 pm. A few minutes before this time, please do the following:

1. Click the link: <http://streaming.med.utoronto.ca/31410>
2. Type in your name and press Enter
 - A high-speed internet connection is recommended.
 - Ensure your browser (IE, Firefox, Chrome or Safari) is up to date.
 - Headphone or earbuds are recommended.
 - For about 10 minutes before the session begins, there will be a video with music playing. Use this time to adjust the sound on your computer, if necessary.
 - The presentation will be approximately 45-minutes followed by a Q & A period. To ask a question, type it into the chat box and the presenter will respond to it verbally.
3. After the webcast, please consider providing input into how to improve future LMP webcasts, topics of interest, frequency of webinars, potential speakers for future presentations, etc. Please email your thoughts to Myron Cybulsky (myron.cybulsky@utoronto.ca). Thank you.
