

EPIGENETIC CHEMICAL PROBES FOR STEM CELL BIOLOGY DISCOVERY

Dalia Barsyte-Lovejoy, PhD.
Principal Investigator,
Structural Genomics Consortium,
University of Toronto

December 6, 2017
3:00– 4:00 pm
Red Room, Donnelly Centre
160 College St, Toronto, Ontario

Join the webcast:
<https://goo.gl/2Q8rLd>

Epigenetic probes in regulation of T helper cell differentiation: potential applications in immune-mediated diseases

Speaker: Tiago Medina, Post-Doctoral Fellow, UHN

Towards epigenetic therapy for colorectal cancer

Speaker: Evelyne Lima-Fernandes, Post-Doctoral Fellow, UofT

In partnership with:

Event space
provided by:

Donnelly Centre
for Cellular + Biomolecular Research
