

FACULTY RECRUITMENT SEMINAR

THE DEPARTMENT OF BIOCHEMISTRY / MEDICINE BY DESIGN

THE FACULTY OF MEDICINE / THE INSTITUTE OF BIOMATERIALS & BIOMEDICAL ENGINEERING
UNIVERSITY OF TORONTO

Dr. Darcie Moore, PhD.
Senior Post Doctoral Fellow,
Brain Research Institute, University of Zurich
Laboratory of Sebastian Jessberger

SEMINAR BY: DR. DARCIIE MOORE

TITLE: "A mechanism for cellular
rejuvenation in mammalian neural
stem cells"

TUESDAY APRIL 5, 2016
4:30-5:30PM

Location: Donnelly Centre- Red Room
160 College Street- 2nd Floor

BIOGRAPHY:

Darcie joined the laboratory of Sebastian Jessberger in 2010 after finishing her PhD with Jeffrey Goldberg in Miami working on the role of KLF transcription factors for axonal growth. Her work is now focused on understanding how age is segregated during neural stem cell division. Darcie was previously supported by the ETH fellow program. She currently holds a long-term fellowship of the Human Frontier Science Program (HFSP).
